# U. S. WARSHIP ATTACKED BY DIVER

## ROUTED GERMAN DESTROYING LENS

### STRIKE IN BERLIN IS CRIPPLING INDUSTRIES

Output of Metal and Wood Is Affected; Transportation Is Partly Tied Up by Protest

GERMANY TO ANNOUNCE HER TERMS OF PEACE

Socialists of Central Powers and Russia Are Working to Terminate the World War

By United Press.  
LEADS WIRE TO TRIBUNE.  
AMSTERDAM, April 17.—Berlin's general strike is crippling the output of metal and wood and tying up transportation facilities, according to dispatches received here. Details were meager. There was no confirmation of one report of disorders in the German capital.

The general strike had long been expected, the radical Socialists having announced it as a protest against the 2 per cent cut in the bread ration put into effect Sunday.

Semi-official dispatches, however, insisted that the strike had affected very few industries and that it was without general public support. The report of the strike, however, was in a few months might see occurrences similar to those in Russia, might again postpone the end of the war, which now seems so near, and again cost hundreds of thousands of lives on the battlefield.

By William G. Shephard.  
United Press Staff Correspondent.  
CHRISTIANIA, April 17.—Germany is shortly to issue to neutrals a statement of the terms on which she considers peace negotiable, according to rumors in diplomatic circles today.

The reports came from sources known to be closely identified with the German official plans.

These closely in touch with the German movement here had not heard of any details of what Germany proposes to offer. They did not believe, however, that there would be many concessions from the unofficial, but highly inspired, outlines of Germany's demands given out both at Washington and in Germany at the time of Von Bethmann-Hollweg's famous peace tender last December.

Scandinavia is the center of Germany's peace efforts aimed at Russia. That the Teutonic officials are bending every effort to realization of their hope to separate peace with the new provisional government at Petrograd is apparent in every quarter here.

American diplomatic officials have been formally advised that the German government is behind the pseudo Socialist movement for peace. It was the German government that apparently started the Socialist propaganda work and it was the German government that pushed it by active support.

Count Von Bernstorff, prime apostle of peace propaganda work, has been selected as German ambassador to Sweden, purely in line with this Russian effort.

Meanwhile German propagandists of lesser caliber spread reports of Germany's desire for peace, carefully avoiding, however, any statement of terms.

### VOLUNTEERS' CALL MAY COMPROMISE CONSCRIPTION PLAN

Senate More Agreeable Than House on Provision for Draft in Army Bill; 500,000 to 1,000,000 Men Sought

U. S. TO HURRY ENTENTE AID

By ROBERT J. BENDER.  
United Press Staff Correspondent.  
WASHINGTON, April 17.—Politics may beat the conscription army plan. Growing fear on the part of many congressmen that they could no longer face their constituents with an "I kept you out of war" plea—should they vote for conscription—made it appear inevitable today that the volunteer plan will be given a trial first.

The compromise which seems likely to go through will be authorization for the President to call for 500,000 to 1,000,000 volunteers immediately, to be raised within ninety days. At the same time the machinery for conscription will be authorized and put into motion so that if the volunteer system doesn't work within ninety days, conscription could be put into effect immediately thereafter.

This is the situation in the House. The Senate, on the other hand, appears more favorably inclined to the conscription plan. Senator Chamberlain believes there is only one vote in the Senate military committee which favors a compromise. Chamberlain feels there is sufficient volunteer provision in the bill as it stands to give that system a thorough test while the actual work of preparing for conscription which immediately will take two or three months—is being done.

SENATE IMPATIENT.  
It was indicated today that the Senate committee will wait for the House committee's action on the bill much longer.

The situation is better in hand, from the administration's viewpoint, in the Senate than in the House and it may be that the upper branch will get the jump and pass the whole buck up to the House.

Unless President Wilson and Secretary Baker weaken and accept a trial of the out and out volunteer system, it appears likely that there will be considerable debate on the army bill and it probably won't become a law for some time.

A popular demand that Theodore Roosevelt be permitted to lead a division abroad as soon as he can raise it has sprung up all over the central western part of the country. If a rush of telegrams and letters here are to be accepted as showing which way the wind blows.

T. R. HAS "PUNCH."  
Opinion prevails here that the central western part of the country is fully alive to the real war conditions facing this country and some kind of an "awakener" is necessary. Roosevelt, many in Congress believe, could lead the big push which is necessary, perhaps better than any other man.

It is probable that should the conscription army bill fail or be modified, the volunteer plan will be immediately given permission to go abroad with his division. If conscription passes he'll lose his chance unless President Wilson grants a special dispensation in his case.

WILL HASTEN AID.  
By Carl D. Groat.  
United Press Staff Correspondent.  
WASHINGTON, April 17.—America's part in the big push which is hurrying German troops back from their long-established lines in France, keeping Teutonic commerce off the seas, and arming the republics of the world against the Kaiser will be under discussion here within the next twenty-four hours.

Food and fighting forces are yet to really be mobilized, but all efforts are being directed toward a single goal. The United States is expected to pass the war bond bill, making available a gigantic loan to the allies, as well as providing for America's financing of the war against Germany.

The high commissions of both England and France will be here in two days in the most select part of Washington.

Special care has been taken to guard the commissioners. In some quarters it was suggested that placing them in private houses was due to a desire to shield them from both the curious and from possible cranks. Special police will be assigned to see that they are not molested.

### 7 BILLION WAR BILL UP TO SENATE

Secretary McAdoo Asks Big Banking Interests for Suggestions in Floating Bonds

Stone Criticizes Measure, and Simmons Urges Prompt Action to Aid Foes of Germany

By Associated Press.  
LEADS WIRE TO TRIBUNE.  
WASHINGTON, April 17.—Consideration of the \$7,000,000,000 war finance bill was begun today in the Senate.

Senator Stone, opponent of most of the administration war measures, announced that he would vote for its passage, but thought it should have been framed along different lines and reserved him the right to state his views later.

"This is a war measure, however, and I accept the judgment of the committee," said Stone.

Senator Simmons predicted that after the present issue another issue probably will be necessary, possibly at a higher interest rate. For this reason, he said, it was desirable to give subscribers to the present issue the conversion right to exchange their bonds for those having higher rate.

URGES PROMPTNESS.  
"Simmons said it would be 'long, weary months before we can render much assistance in the field.'"

"This bill represents all we can do now," he said, "and they are asking us to do, in the name of America, of patriotism, of liberty and democracy, let us do it now quickly without carrying or hesitation in the spirit of men inspired by the cause for which we are fighting. Let's give to the German Kaiser and his people and to all their henchmen that we are obsessed with wealth and that the canker of riches has taken possession of the American people."

The conversion privilege has been found absolutely necessary by all the European governments. Probably we will have to pay more for money within a very short time.

By United Press.  
LEADS WIRE TO TRIBUNE.  
WASHINGTON, April 17.—Secretary McAdoo today called upon the big banking interests of the country, including J. P. Morgan & Co., for suggestions as to floating the \$7,000,000,000 bond issue.

McAdoo informally conferred with members of the federal reserve board's advisory council today and asked that each member submit individual ideas on the floating of the bonds in writing. This is a departure from the usual custom of recommendations being made orally by the whole council, which begins its regular quarterly meeting tomorrow. By that time, it is believed, the bill will be a law and definite steps shall then be taken on what are now merely tentative plans.

MANY ARE HURT WHEN BLEACHERS CRASH TO EARTH

COLUMBUS, O., April 17.—Every available ambulance in the city was rushed to Neal Park this afternoon to care for many persons who were reported to have been injured when a section of bleachers collapsed during the Columbus-Louisville American Association baseball game. This was the first game of the season here.

STEAMER IS SUNK

NEW YORK, April 17.—The British steamship Karmala, 18,933-ton passenger vessel, owned by the Peninsular and Oriental Steam Navigation Company, was drawn on a reef and sunk in the Gulf of Mexico today, after being shelled and torpedoed by a German submarine, according to two Americans who were among the Karmala's 190 passengers and who arrived here today from Europe. All on board the Karmala were saved.

### FIVE KEY POINTS OF TEUTON DEFENSE ARE NEAR CAPTURE

Franco-British Onslaughts Menace Hindenburg Line at Lens, La Fere, St. Quentin, Cambrai and at Laon

GERMAN LOSS IS NEAR 100,000

By United Press.  
WITH THE BRITISH ARMIES AFIELD, April 17.—France's brilliant part in the great offensive stimulated British forces to redoubled energy today.

General Haig's forces continue their advance. Outposts and patrols pushed steadily forward to the east today. Two more field guns were captured in Hiredelle wood.

Meanwhile, desperate work of destruction by the Germans continues in Lens—now fast doomed by the British encircling movement. Today the Teutons dammed the Souchez river, backing up the water into Lens.

Lievie, a suburb of Lens, now held by the British, was totally destroyed before the Germans were forced out. The great coal mine and coal works there had been wantonly smashed.

Freiburg Is Bombarded By Airmen

By Associated Press.  
LEADS WIRE TO TRIBUNE.  
BERLIN, April 17 (via London).—An official announcement by the war office says that eleven persons have been killed, twenty-nine injured and considerable damage done, to the university buildings by an air attack on Freiburg. The official statement follows:

"On Saturday at noon an enemy air squadron of twelve airplanes attacked the town of Freiburg in Breisgau. At 5 o'clock in the afternoon the attack was repeated by two further squadrons totaling twenty-three aeroplanes.

"To this nefarious attack, several people unfortunately fell victims. Seven women, three men and one soldier were killed and seventeen women, eight men and two children injured.

"The enemy airmen selected as objectives the new municipal theater, institutes and infirmaries. The anatomy section of the university was considerably damaged. Owing to our measures of precaution, no attacks could not be fully executed.

"In the course of air battles, which resulted, two enemy airmen were shot down near Schleifstadt and Markelich. The third was shot down in the air battle combined with a bombardment from the ground. All three aeroplanes were of English type with English occupants.

"The leader of the attack, an English lieutenant-colonel, fell into our hands. According to his statement and the contents of a fly sheet which was thrown down, the attack was in reprisal for the torpedoing of the Gloucester Castle (British hospital ship) recently sunk by a German submarine. We must resolutely contest the right to make such attacks. In justification, our government gave England to understand in time enough that it could no longer tolerate the passage of so-called hospital ships in the precisely defined zone. If the English, despite our warning, misuse the Red Cross and carry it on transgressions in the war zone, they must bear the consequences of their action; but to attack an open town from revenge is cheap glory. There are no objects of military importance in Freiburg to justify the attack.

A British admiralty statement issued last night stated that a large squadron of British and French aeroplanes had bombarded Freiburg on Saturday. It was stated that the bombardment was a reprisal for German submarine attacks on British hospital ships.

TELL OF SUCCESS

LONDON, April 17.—Andrew Bonar Law, member of the British war council, moving in the House of Commons this afternoon the second reading of the bill to extend the life of parliament until the end of November, said the British troops were engaged in the greatest operation since the commencement of the war and were meeting with successes which exceeded his expectations.

### SUBMARINE FIRES UPON AMERICAN DESTROYER

Blockade Is Opened Upon the Atlantic Coast; Diver Seen; Torpedo Attack Opens Crisis

U-BOAT ESCAPES AS SEA FIGHTERS ARRIVE

Steamer Lane Guarded; Secret Base Is Sought; Jellicoe Issues Call for Reinforcements

BOSTON, April 17.—Germany has brought the war to the very doors of the United States.

The first engagement in the conflict between the United States and Germany was fought today when a German submarine attacked the American torpedo-boat destroyer, the *Smith*, forty miles off the Long Island coast. A torpedo was fired at the *Smith*, but missed by about thirty yards. The submarine then submerged and escaped.

Official news of the attack was received at the Charleston, navy yard by wireless from the scout cruiser Chester.

The *Smith* had reported to the Chester immediately after the attack. The point where the submarine appeared in the main steamer lane in the Atlantic ocean off Long Island. This was the first appearance of a belligerent submarine in American waters since the United States entered the war.

The wireless message came from Fire Island, off the eastern Long Island coast, and was relayed to the navy yard here by the scout cruiser Chester.

The text of the wireless message was brief and simply stated that the submarine "disappeared."

The fact that the enemy undersea fighter is in adjacent waters, still probably well armed, caused a great stir in shipping and naval circles along the coast.

The destroyer *Smith* is of the "M" class, built in 1909, with a length of 288 feet and a displacement of 700 tons. Her speed is 29½ knots an hour and she is armed with five 14-pounder guns and three 18-inch torpedo tubes. She carries eighty-seven men.

OFFICIALLY CONFIRMED.

This announcement was made at the navy department.

"Reported from Fire Island Lightship to the naval stations at Boston and New York at 3:30 a. m. on the 17th an enemy submarine was sighted by the U. S. S. *Smith*, running apparently submerged. Submarine fired a torpedo at the U. S. S. *Smith*, which missed her by thirty yards. The wake of the torpedo was plainly seen crossing the bow of the *Smith*. The attempt to sink the *Smith* was communicated by wireless first to the scout cruiser Chester, then by wireless via the Fire Island station to Boston and New York. Immediately the word was sent broadcast to the entire Atlantic fleet and the various squadrons of destroyers and submarine chasers, which are guarding the steamship lanes. According to the account reaching Washington, which differed slightly from the reports from Boston, the outlook of the *Smith* sighted a dark shape some distance off about 3:30 this morning. The alarm was at once given, but the dark spot disappeared almost immediately thereafter. The wake of a torpedo was sighted plainly. It passed across the bow of the destroyer some thirty yards ahead.

The *Smith* immediately steamed directly for the spot where the submarine had been seen, but it was not sighted again.

BLOCKADE BEGUN.

The presence of enemy submarines in American waters indicates that the threatened German submarine blockade of American Atlantic ports has begun.

NEW YORK MENACED.

NEW YORK, April 17.—The greatest city in the world is in the war zone. This afternoon the city was threatened by a determined blockade. The greatest secrecy is being maintained as to steps that are being taken to protect the port, but with a German U-boat reported by the Navy Department immediately off the coast, the city was admittedly menaced.

Late reports from the Boston naval station indicated the belief that the submarine which attacked the United States destroyer *Smith* might be off the Jersey coast.

A successful eluding the American patrol ships, the submarine might slip into Long Island Sound and bombard outlying sections of the town.

New York harbor is guarded by

# BERLIN IS CRIPPLED BY STRIKE

(Continued From Page 1)

many, may possibly be the basis of the latest Austro-German peace offer to Russia, as far as German aspirations in the east are concerned. Austria-Hungary for her part seems from the wording of recent outpourings clearly to have abandoned all the plans for annexation which developed during the war. The German allusions to the subject are less specifically phrased. The significant wording of an article in the Socialist newspaper, Vorwaerts, now considered to speak with some authority, however, gives a clue to the solution which the German government apparently has in mind as between the Socialist demand for peace without annexation or indemnities and the insistence of the other parties for a peace that would in some measure compensate Germany for her sacrifices in blood and treasure and assure a safe future for the German empire, as the catch-phrase of both the Pan-German annexationists and the government has it.

"We have reason to believe," the newspaper declares in referring to the Socialist stand for a peace without annexations or conquests or humiliation for any nation, and for giving every race the right to decide its own destinies, "that the government recognizes the justice of this standpoint and honestly desires to terminate the war by negotiations in which the powers would participate on the basis of full equality, with every thought of enforced cessions of territory excluded."

## TO GRANT RAISE

NEW YORK, April 17.—A tentative agreement to advance the wages of 225,000 miners in the bituminous coal fields of Ohio, Indiana, Illinois and Western Pennsylvania by about 20 per cent at expiration of the present contract was reached today by a committee consisting of operators and employees from the four states.

# Diver Attacks U. S. Warship American Ports Are Blockaded

(Continued From Page 1)

submarine nets, it is known, but whatever defenses there are is kept secret by the Navy Department.

The navy yard in Brooklyn was closed to everyone this afternoon. Inquiries by telephone brought only the curt response that there was no information to give out. At Governor's Island, headquarters of the army of the east, there was the greatest activity. It is there that aeroplanes are held ready for duty. When the report of submarines being in Long Island Sound were circulated recently army aviators took to the air and aided in the search for them.

Stretching from New York to Atlantic City are scores of towns along the New Jersey coast, which are entirely unprotected and might be bombarded by hostile submarines.

All are "open" towns and immune from attack under international law, but Germany has bombarded many such towns on the British coasts.

**TO ISSUE ORDERS.**

Navy yard officials announced today that all masters of merchant marine vessels just prior to sailing from any port will receive sealed instructions as to just what course to take on leaving the harbor and getting away from the coast line.

The attack by the U-boat is Germany's first recognition of the state of war declared by the United States. It was stated in Germany soon after the action of Congress that no aggressive steps would be taken against the United States. Practically no American officials believed this statement, however, and steps to meet aggressive action were taken at once.

Naval authorities announced today that until further notice no commercial messages would be handled in the first naval district between ships at sea and shore radio stations. Wireless communication of all ships entering ports in this district will be sealed while the vessels are in port.

**HEARD OF MOVE.**

Last week word came to Washington in a roundabout way that Germany was about to declare a prohibited submarine zone about the harbors at Boston, New York, the Delaware Capes, Chesapeake Bay, Charleston and Savannah. This would have included all the important ports on the Atlantic seaboard. It was said then

that an official warning to neutrals of the prohibition zone would be issued from Berlin. Some American officials were disinclined to credit the report, but the entente diplomatic corps here believed in it and predicted that Germany soon would carry the submarine campaign to this side of the Atlantic, principally for the American harbors and to raid the great squadrons of merchant ships which are moving food and supplies to America's allies on the European battlefronts.

Some officials are inclined to believe that the lack of a declaration of a prohibited zone in American waters may be due to the crippled condition of communications with Germany since the United States entered the war. Without such a declaration, they point out, Germany will incur great claims of damages to neutrals and will carry on a new campaign without the color of legal authority which she contends the declaration of a barred zone tends to it.

**CALLS FOR AID.**

LONDON, April 17.—Admiral Sir John R. Jellicoe, former commander of the British grand fleet and now first sea lord, informed the Associated Press during the course of an interview today that anything and everything in the way of small craft, from destroyers to tugs, would be the most useful contribution that the United States could make to the war against German submarines. In this connection the first sea lord asserted that the best hunting ground for raiders is on this side of the water, as the possibility of German submarines operating on the American coast is almost negligible unless they have a base on that side.

"I have no desire to minimize to the American people the serious situation prevailing as a result of the illegal use of submarines by the Germans," said the Admiral. "Neither is it easy for us to take them into our confidence and tell them what we are doing to cope with the evil without providing the Germans with useful information. No method existed in the past for fighting the submerged submarine, and the new inventions and processes for that purpose take time to develop. We are giving your navy all the information in our possession, and, knowing its record, we have great confidence that American inventive genius will supplement it with valuable contributions."

**ALLEN'S FOOT-EASE DOES IT.**

When your shoes pinch or your corns and bunions ache, try Allen's Foot-Ease. It is the most effective shoe powder in the world. It is made of pure talc and is so fine that it gets into the shoes and sprinkles in the foot. It will take the sting out of corns and bunions and give instant relief to tired, aching feet. Over 100,000 packages are being used by the German and Allied troops in the front. Sold everywhere. 25c. Don't accept any substitute.—Advertisement.

# MAJOR COMPROMISE ON CONSCRIPTION

(Continued From Page 1)

German lines emphasize the belief in military and diplomatic circles that danger is part of an enormous and sudden blow against Russia which might overwhelm the republic and make the cause of Germany's foes far greater than had been anticipated.

Officials in close touch with the situation in the entente embassies, say that if Germany can hold her lines in the east now she will be completely fortunate, as it has been necessary to withdraw the first-line veterans to try to hold the "Hindenburg Line," and that the Russian forces, poorly disciplined and equipped as they are, are more overthrown than the troops from here.

In consequence officials here say the Anglo-French-United States conference can discuss a complete program without fearing that it may be overwhelmed by military changes.

The real work of the commission will not begin until next week.

**NOT IN THE COUNTRY.**

The state department at 10:45 o'clock today authorized the following announcement:

"We have not received a single word we can make public regarding the whereabouts of the British and French members of the international commission. They are not in the United States as yet."

At that time officials also made it plain that until the visitors are at a place where their entire safety is assured, information regarding their whereabouts must be withheld.

**COULD WILL JOIN.**

WASHINGTON, April 17.—The republic of Cuba will send a commission to Washington to confer with English, French and American commissioners here.

Entente commissioners who will talk American-allied co-operation with government heads here include: For England—Foreign Secretary Arthur J. Balfour, Lord Curzon, Admiral de Chair and General Bridges. For France—Minister of Justice Viviani, Field Marshal Joffre, Marquis de Chambrun and Vice-Admiral Chocheat.

Senator Sherman of Illinois introduced a resolution authorizing the President to enter into a pact with the entente allies binding the United States not to make a separate peace with Germany. The resolution was referred to the foreign relations committee.

**PRESIDENT INSISTS.**

WASHINGTON, April 17.—President Wilson today made it plain that he will not permit politics to interfere with the universal military service bill. Unless Congress will agree to this side of the water, as the possibility of German submarines operating on the American coast is almost negligible unless they have a base on that side.

The President arranged for conference with the Attorney General, the House military affairs committee, and with Representative Mann, minority leader of the House, and Representative Lenroot.

**MUST INTERPRET.**

When it was discovered that the chief witness was deaf and dumb the trial of the case of Lawrence Woodworth against the J. Armstrongs before Superior Judge W. J. Wast was postponed until an interpreter of the finger sign language of the deaf mute can be found.

Woodworth was the prospective son-in-law of Armstrongs when the latter rowed several thousand dollars from him and gave as security a mortgage on some property. Later the property was sold by Woodworth, it is alleged, that the property was already mortgaged and Woodworth is suing for the return of the money.

**GETS HIS RELEASE.**

Robert Prietz, convicted by a jury five months ago of committing a salutory offense upon his two minor daughters and sentenced to fifteen years in San Quentin penitentiary, this morning was released by Superior Judge Frank B. Ogden after the Appellate Court, to which Prietz appealed, had rendered an opinion that the testimony of the girls and their father was of "inherent improbability" and that the case merited a new trial. On the motion of Assistant District Attorney James M. Koford the charges against Prietz were dismissed and he was released from the custody of the sheriff.

**ASKS PROBATION.**

Margaret Powell, former proprietor of a massage and bath parlor, pleaded guilty to embezzling \$150 from Hannah Strand before Superior Judge Frank B. Ogden this morning. Upon her request that she be released on probation, the court referred her case to the probation officer for report May 15. The Powell woman, after buying the furniture and equipment of a massage and bath parlor, conducted by the Strand woman, on the installment plan, sold the property before completing her payments. According to Assistant District Attorney James M. Koford, who agreed to have the case referred to the probation officer, the convicted woman had been driven from pillar to post and had been unable to make a living.

**SUFFRAGE BEATEN.**

HARRISBURG, Pa., April 17.—By a vote of 101 to 94 the House of Representatives today defeated a proposed constitutional amendment establishing equal suffrage. To pass the bill 104 votes were required.

(Continued From Page 1)

ence almost everywhere along the front. The majority of their reserves were engaged south and east of the Brimont Ridge. It is from the Brimont fort, built on a rocky hill which dominates all the plain around, that the Germans have bombarded the city of Rheims. The French troops are now very close to this ridge, which is likely to play a prominent part in the coming fighting. In capturing Loivre they have drawn nearer to Berniercourt, and have gone far beyond the famous position which they lost in the first weeks of the war and failed to win back at the battle of the Marne.

According to the latest news reaching Paris the Germans are bombarding the lost trenches furiously, counter attack after counter attack having been delivered far into the night. The struggle is particularly fierce in the region of Craonne, but the French have so far managed to hold their gains.

The French advance averages in depth from two to two and a half miles beyond the German first position, which is composed of lines of five and six trenches, one behind another.

**GREATER SUCCESS.**

Measured by the amount of territory freed the victory does not compare with the Somme offensive which opened a month ago, but viewed from the amount of destruction done to the enemy's armed forces and the damage to his military prestige, it is a far greater success. Here there can be no question either of a previously planned retreat or a surprise. The enemy expected an attack and made every preparation to defeat it.

From Soissons to Craonne the German line runs along a series of hills of an average height of 500 feet, with deep valleys between. The attackers advanced up the valleys under a cross-fire from each flank, but the artillery curtain, on a new plan introduced by a British general, was so effective that the operation was carried out at less cost than might be expected.

The weak point of the German line is from Craonne to Rheims, where the ground is more level. Here the attack made more progress and the danger of a rupture of the line became so imminent that the Germans threw in all available reserves. The reserves were smashed by the French field artillery, which kept close on the heels of the waves of infantry.

**GREATEST BATTLE OF WAR.**

BERLIN (via London), April 17.—"One of the greatest battles of the mighty war, and therefore also in the world's history," says the official statement issued today by the German army headquarters staff, "is in progress on the River Aisne. In the Champagne this morning fighting between Prunay and Auberville developed, the battle line thereby extending to the River Oise into the Champagne."

"Our troops anticipate with entire confidence the coming heavy fighting."

**TURKS PURSUED.**

LONDON, April 17.—British troops in Mesopotamia are continuing their advance up the Tigris in pursuit of the retreating Turks. It was officially announced today "They have pushed to within a little more than ten miles of Samarra, seventy miles northwest of Baghdad."

# TO THANK U. S. FOR ACTION IN AIDING ALLIES

**BY ASSOCIATED PRESS.**

LONDON, April 17.—The Earl of Crawford gave notice in the House of Lords this afternoon that Earl Curzon of Kedleston tomorrow would move the following resolution:

"This House desires to express to the government and people of the United States of America their profound gratitude for their government in joining the allied powers and thus defending the high cause of freedom and rights of humanity against the gravest menace by which they ever have been faced."

of Baghdad, and within a mile and a half of Istablat, where the Turks apparently are expected to make their next stand.

**ITALIANS MAY AID.**

ROME, April 17.—Italy may be starting an offensive timed to catch the Germans when they are busy with men to withstand the great Franco-British push on the western front.

Advices received here from Switzerland today reported the Italian artillery extremely active on the Isonzo front. One despatch significantly mentioned a large number of Austrians taken prisoner by the Italian forces. Heavy losses were said to have been sustained among the Austrians by the concentrated Italian gunfire.

**GERMAN LOSS HEAVY.**

LONDON, April 17.—Field Marshal Haig again swung the center of his pressure away from Lens last night, his armies plunging with good success against the German defenses on the Cambrai-St. Quentin line south of Arras.

The Tombs farm, near Epehy, was captured from the Germans, the war office announced today. Northeast of Epehy the British extended their lines. The text of the war office statement follows:

"Our troops have captured the Tombs farm near Epehy. We have progressed to the northwest of the town."

"Battles extended along the entire fighting front from the North Sea to the Alps."

"Along the Aisne-Rheims front, where the French drove forward yesterday, there was fierce fighting last night, with more level ground, counter-assaults and bombardment of the new positions held by General Nivelle."

**MANY KILLED AND WOUNDED.**

"In addition to the 10,000 prisoners taken by the French, it is unofficially estimated in despatches from Paris that from two to three times that many Germans were killed and that at least 50,000 were wounded."

The Germans had expected a French offensive and has massed about 500,000 men between Soissons and Rheims, it was said.

The battle opened on both sides of the Aisne, around Berry-au-Bac, at 8 o'clock yesterday morning with a grand assault of the Germans works by French infantry.

The struggle was hottest around Loivre, Craonne and on the Aisne canal, where the Germans fought from shell craters and wooded trenches. Before noon the French had gained their victory, sweeping over first, second and third line trenches. Before

# FLAG RAISING IS HELD BY SCHOOL

The pupils of The Watson School are very happy over the possession of a beautiful new flag, which was raised with appropriate ceremony by S. D. Waterman, a prominent member of the Grand Army of the Republic and a well-known educator.

Following is the program:

Song, "America." School recitation, "The Fatherland." Ruth Lawrence, vocal solo. "My Own United States." Miss Gladys MacDonald; flag raising, S. D. Waterman; flag salute, school song, "Star-Spangled Banner." Miss MacDonald and school.

There were many visitors present, among them, Messrs. W. Z. Withers, V. O. Lawrence, J. Schmitt, E. Hurlbut, F. Luck, Gillespie, Dow, Thompson, Norris, Newell, J. J. Jones and Knight, Messrs. Roy Maurya, George Goodman, J. F. Thompson, F. B. Norris, Lewis T. Watson.

they could begin to organize their new positions the Germans had brought the reserves and began making counter-assaults. At one point the French penetrated nearly three miles. All Monday and Monday night a titanic battle raged over a field of about 10 miles long, with the British attacking on the north half and the French on the southern.

**FRENCH DRIVE AHEAD.**

PARIS, April 17.—Still driving ahead, French forces today organized the positions they conquered in the first smash of their offensive, today's official statement asserted.

Strong counter-assaults in this region—between Soissons and Rheims—were repulsed. They were particularly desperate in their intensity in the neighborhood of Ailles and Goucy. The German attackers sustained heavy losses.

Paris had the great offensive brought forcefully home to her today when thousands of the 18-year-old boys of the city crowded the railway stations leaving for the service. They were of the 1917 class.

**RELEASES JUROR.**

Service in the army or navy of the United States takes precedence over service on a superior court jury panel according to an opinion rendered by Superior Judge Frank B. Ogden in excusing from jury duty, Robert Quinn, a member of the naval reserve, who has been called to active service and who is a member of the present jury panel sitting in the superior court.

**Wash Away Skin Sores**

D. D. D., the liquid wash, has become a household word. It has proved itself a remarkable remedy. If you are a sufferer from skin diseases, in any form, this remedy will not disappoint you. It has stood the test and today is the best skin medicine in the world. Try D. D. D. We guarantee it. 25c. 50c. \$1.00.

"In a class by themselves"

## Silk Suits

## Khaki-Kool

## Yo San

## Poplin

No "SALE" on earth ever produced such values as are represented in these silk suits. We KNOW what most stores paid for these garments only a few weeks ago, and we KNOW what these stores are holding them for. There are thousands of business men who today are scared out of all reason on account of the "WAR." We are neither scared nor have we stopped buying (which probably accounts for the fact that we haven't stopped selling).

And these peculiar conditions account for the fact that Reich and Lievre buyers in New York, with ready cash, are practically getting everything they want at their own figures.

Silk Suits \$29.68 \$34.68 \$38.48

## Jersey Suits

## Are In Great Demand

We are glad to say that we are well-prepared with Jersey Suits in the best qualities (only the best qualities find their way into our shops) in every GOOD color and every size at almost any price you feel prepared to pay.

New styles have made their appearance almost daily since the season started and the assortments have never been better.

\$25.00 is the most convincing value

 and 35c values in Combs, choice of horn,  
 ry, or rubber, each .....2

# NORTHWEST SPEEDS WHEAT TO ENTENTE

PORTLAND, Ore., April 17.—With 25,000,000 bushels of wheat remaining in the three Pacific Northwest states to be moved, 150 carloads will leave for the Atlantic coast daily for the European allies, according to estimates of railroad men here today. The railroads have reached an agreement whereby every effort will be made to speed these shipments. The British government has purchased heavily recently. It is estimated by railroad men that from 10,000,000 to 15,000,000 bushels must be moved in the next two months. Cars are being rushed to assembling points.

# RUSS PEOPLES PLAN VOTE WITH EQUAL SUFFRAGE

BY UNITED PRESS.  
LEASER WIRE TO TRIBUNE.  
PETROGRAD, April 17.—A congress of the council of the workers and soldier delegates today adopted a report providing for election of a constituent assembly for Russia as soon as possible. The election, according to the recommendation, is to be held under the supervision of the Duma council and all above twenty years old will have the privilege of voting, women included.

# FLAW FOUND IN ANTI-PICKET ACT

Discovery of a flaw in the proposed anti-picketing ordinance, which is to be voted upon at the general election May 8, will render the ordinance ineffective if adopted, City Clerk L. W. Cummings stated today. As the ordinance was being prepared for printing, Clerk Cummings found that no provision was contained in the proposed measure fixing the date upon which it would become operative.

Lack of time in which to verify the petition to place on the same ballot an initiative liquor ordinance as substitute for the present ordinance not only will prevent the measure from being voted at that time, but the entire proceedings would have to be gone over again, Clerk Cummings said, for the reason that the measure designates a specific time for adoption.

**HOLD FRANCHISE MEETING.**  
The advisory committee in the matter of the proposed reestablishment franchise for the San Francisco Oakland Terminal Railway held its initial meeting last night when preliminary steps were taken toward obtaining data upon which the committee will work in its deliberations. The next meeting will be held April 20, when it is thought that certain data will be ready for perusal.

# STUDENT ON CYCLE TELLS OF PICNIC

Pedaling on a thousand-mile bicycle trip through the state en route to his home in the Imperial Valley, A. R. Kramer, a senior student in the University Farm at Davis, visited Oakland today as publicity agent for the annual picnic day which is to be held this year on Saturday, April 28. Kramer is stopping at every city on his way south, interesting secretaries of the chambers of commerce and newspaper editors in the farm celebration.

Last year's Picnic Day attracted an attendance of 16,000 people and 2800 automobiles were parked during the day. It is expected that this year's celebration will exceed these numbers. The annual picnic is educational as well as diverting in its aim. The parade, which starts the exercises of the day, contains live stock, floats descriptive of the various departments of farm work and other features of agricultural interest.

The entertainment features of the day include a baseball game, between T-Sanford and California teams, a tennis tournament, a track meet, a water polo game, jousting contests and rough riding.

# ASK FIREARMS DIVORCE CASE IS ENDED BY COMPROMISE

Orders have been received by the police department from the government authorities instructing that all firearms, ammunition, explosives, signaling devices or anything that comes under the ban of the Federal statutes covering the present war conditions which may be in possession of aliens be delivered up within twenty-four hours after notice is served.

**BIRTHS**  
MCCUTCHEN—April 13, to the wife of Sam W. P. McCutchen, a son.  
COHAN—April 16, to the wife of William Cohan, a son.

# VOLUNTEERS TO HOLD MEETING

Call has been issued by Chief of Police Peterson for the gathering of the Oakland Volunteers at a meeting to be held in the assembly room of the police department in the city hall Thursday evening. Those who have already signed the roll have been asked to be present for the purpose of organizing and to "bring a friend."

The roll of the volunteers already contains nearly 300 names. The prospects are that this number will be doubled within a few days when active steps will be taken for permanently organizing companies and drilling.

**NURSES' CLUB TO MEET.**  
RICHMOND, April 17.—Tomorrow afternoon in the Abbott Emergency hospital the Richmond Nurses' club will hold a meeting for the purpose of adopting a set of by-laws for the government of the new club. The president, Mrs. Craver Shirkopf, will preside at the meeting.

**SAY THERE!**  
Lovely Mary Miles Minter appears in person at the New T. & D. eleventh at Broadway, Wednesday (tomorrow) at 8:30 p. m.—Advertisement.

COMING SOON—A great event that has taken months of preparation. Keep your "Thrifty" eye out for it. Watch the papers.

NOTE: REFER TO BULLETIN BY DATE & NUMBER.

TECHNICAL DEPARTMENT BULLETIN	
DATE	NUMBER

TO ALL DEALERS:

For your information we wish to advise that in our experiments and tests here at the factory with our new Eight Cylinder car, we have been able to secure uniformly better results with Standard Oil Company's Zerolene motor lubricant than with any other which we have used.

Please understand, however, that we do not wish this to be construed as an attempt on our part to dictate the brand of oil which you should use, but merely to call your attention to the fact that this particular brand has given us better results than any others which we have tried, and are giving you this for your information.

Yours very truly,  
THE PEERLESS MOTOR CAR COMPANY

**BECAUSE Zerolene is correctly refined from asphalt-base crude, it maintains its lubricating body and value at cylinder heat, thus forming a perfect piston seal, reducing friction, and enabling the motor to develop its maximum power.**

Zerolene is the oil for your car.

For sale by dealers everywhere and at our Service Stations.

## RE-ELECT William J. Baccus

(INCUMBENT)

### COMMISSIONER OF STREETS

Designated as No. 2

## GOVERNOR SIGNS NINE MEASURES

SACRAMENTO, April 17.—Governor Stephens has signed an assembly bill by Horbach of Tulare providing the legal machinery whereby county recorders may at the request of stockmen perpetuate brands and counter brands and make them a matter of record. At present the county recorders have no authority to clear their files of brand registrations that have existed for many years. The law requires the stockmen to notify the recorder within three months after the publication of a legal notice of their desire in the matter of brand registration and if no response is made the owner of a brand automatically loses his right and title thereto.

Eight other bills were also approved by the governor, five of them being salary changes in various counties. Others approved were:

By Sharkey—Permitting county supervisors to employ a superintendent or inspector to assume charge of the maintenance and repairs of county roads.

By Mouser—Requiring permission of the state fish and game commission for taking game animals for propagation purposes.

By Tyrrell—Appropriating \$50,000 to pay for the publication of amendments to the state highway act which were voted on in November, 1916.

## SATTERWITE WINS

SACRAMENTO, April 17.—Reconciliation of a bill by Satterwite of Oakland to establish a state bureau of criminal identification resulted in its passage today in the assembly, 45 to 15.

## PIMPLES? RASH? SEE HOW QUICKLY POS-LAM HEALS

You apply a little Pos-lam on some affected part at night. In the morning, when you look, your own eyes give evidence of this healing remedy's work. If it was a slight trouble—an adolescent pimple or inflamed spot—the chances are that it has disappeared. If a virulent eruption, it should be subdued, so much so that you will want Pos-lam to keep right on.

Sold everywhere. For free samples write to: Emergency Laboratories, 243 West 4th St., New York City.

Be careful of the soaps you use on your skin. Pos-lam Soap is safe, beneficial. Advertisements.

## HELPLESS RIEHL HEARS BARBER'S REVENGE CHANT

The festive cow-lick, scalp-lock or other hair variation that in the past has caused woe to nine-tenths of the Beau Brummels of the United States, is to be no more. Science has conquered it—and science tomorrow has furthered more by the same discovery evolved a revenge so fiendish that man shudders when he thinks of it.

"Heinle" Hildebrand, local barber, has experimented for years to find a remedy for the "cow-lick," and he has discovered it. And, of course, the rule works both ways, for the cow-lick you can take away you can also put on—by the method you have in any good ad at all.

And here is where the revenge comes in.

Martin Riehl, whose hair was his pride, had played a practical joke on "Heinle" and "Hildebrand" and he has discovered it. And, of course, the rule works both ways, for the cow-lick you can take away you can also put on—by the method you have in any good ad at all.

He carefully manipulated it over Martin's upturned dome, and laughed gleefully to himself.

Next morning Martin looked at himself in the glass and fairly froze with horror. A great scalp lock arose. O'er his forehead was a beautiful cow-lick.

He begged, he implored, but Hildebrand is firm. Riehl must wear the cow-lick two weeks, and then he says he will take it out again.

He is even.

## FOR MORATORIUM

SACRAMENTO, April 17.—The possibility of an extraordinary legislative session to succeed the current one led Assemblyman Gelder of Berkeley today to offer a resolution suggesting that a moratorium for mortgage debts be included among the subjects such a session would consider.

Gelder would have Governor Stephens specify in his proclamation that owing to the certain mortgages could not be foreclosed for a period of time the possibility of a special session has not reached more than the discussion point.

## TO SAVE GRAIN

SACRAMENTO, April 17.—Assemblymen Lyon and Barlett of Los Angeles today introduced a joint resolution memorializing Congress to enact legislation forbidding the use of grain used for human food in the manufacture of liquors. The resolution is designated as a war message.

## SENATE CONSIDERS NEW BLUE SKY LAW

SACRAMENTO, April 17.—An entirely new measure which is designed to supplant the investment companies act, better known as the "blue sky law," was before the senate today for action. The proposed new law, introduced by Senator J. B. Reed and named the "corporate securities act," was drafted by Commissioner of Corporations H. L. Carnahan and is the result of his administration of the blue sky law during the last two years. The bill broadens the powers of the commissioner and places within his jurisdiction certain classes of business which were said to have been regulated by the purpose of having regulation and supervision.

The penal provisions of the present law, which have not proved satisfactory to the commissioner, are changed materially to more clearly define violations and establish the personal liability of officers and directors of corporations. The maximum penalties for violations also have been changed. The new law provides for the filing of semi-annual reports by all companies under the supervision of the commissioner, have been eliminated with a view to making the act less burdensome to corporations, but the commissioner is empowered to call for such reports when he deems them necessary.

The fee system also is changed to provide for a minimum of \$10 for filing applications for certificates of issue securities; thereafter the fees are based on a percentage of the par value of the securities proposed to be issued ranging from one-twentieth of one cent to one-hundredth of one cent. The provisions of the present law which requires authorizations in various forms to sell securities and which have been found unworkable are eliminated and in their stead all certificates authorizing stock issues will be known as "permits."

The bill also provides that the order of the commissioner may be filed with the court records in order that notice may be given of their contents where land titles are affected, particularly in the case of bond issues.

## WEINSTOCK WINS

SACRAMENTO, April 17.—Complete victory for Market Director Weinstock indicated today by the assembly committee's report recommending the passage of the bill that will extend his powers.

Inman's bill carrying the \$500,000 appropriation for Sacramento valley flood control was reported in the lower house today after passing the Senate.

Lucas's physical training bill has been given approval by the Senate, and was transmitted to the assembly today.

## TO OFFER PLAY

With a cast of ten principals and numerous chorists, the Kappa Kappa Delta Club will present "The Prince of the Pagoda," a Japanese romance, in the Congregational Armory, Fruitvale avenue and East Sixteenth street, on the evenings of April 27 and 28. The production will be in six scenes, with solo numbers, chorus selections and several ensemble dance numbers.

Among those who will assume leading roles are Ruth Carson, Carlotta Beshitch, Ethel Gibson, Miss Celeste Chase, Miss Mary Matthews, Miss Elizabeth Ryan, Miss Josephine Connors, Miss Esther McKay and Miss Dorothy McGuire.

## AUXILIARY GIVES WHIST

The Ladies' Auxiliary of the Ancient Order of Hibernians will sponsor an open whist tournament tomorrow evening at Knights of Columbus Hall, 660 Thirtieth street. The following members of the organization will score: Miss Florence Cox, Miss Margaret Dempsey, Miss Esther Bowen, Miss Loretta Bowen, Miss Celeste Chase, Miss Mary Matthews, Miss Elizabeth Ryan, Miss Josephine Connors, Miss Esther McKay and Miss Dorothy McGuire.

## ENTIRE COLLEGE DRILLS

EUGENE, Ore., April 17.—Every male student at the University of Oregon must drill with the military remainder of the school year. This action was taken by the faculty at a meeting last night. Thirty of the faculty are drilling with the 400 students. There will be several full companies of cadets and one company of faculty members.

## IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" Is the Quickest and Surest Stomach Relief.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well don't bother. If your stomach is in a revolt, if it sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acids and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without trouble, if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily, that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.—Advertisement.

## EPILEPTIC ATTACKS HAVE BEEN STOPPED FOR OVER 60 YEARS

by DR. KLINE'S EPILEPTIC REMEDY. It is a rational and reliable remedy for Epilepsy (Fallsickness) and kindred nervous derangements. Get it or order it at any Drug Store—\$1.00 and \$2.00.

Send for our valuable book "Epilepsy" (Free) to Dr. R. H. Kline, Dept. B, N. J.

## SOLOON'S FACE IS MARRED BY BLOWS

SACRAMENTO, April 17.—Senator Harry Chamberlain of Los Angeles didn't appear in the legislative halls today. The southern solon's facial beauty is marred with the following:

(a)—One livid optic.

(b)—A swollen nose.

(c)—A split lip.

Chamberlain sustained the damages during a battle royal in the assembly which broke out last night. The darkened eye being administered by Angelo Baldwin of San Diego, clerk of the judiciary committee, and the split lip being inflicted by Senator "Wild Bill" Scott of San Francisco.

The fight broke out in the assembly hall, the result of busting his fellow lawmaker's bugle.

The affair had been kept quiet until today when full details were given out. As related by Senator Scott, one of the principals, it happened like this: "The judiciary committee and the assembly judiciary committee and while I was in the room in comes Chamberlain with a bottle of beer in his hand. He said, 'I've got a little something for you.' He handed me the bottle and I took a drink. Then he started to jab me in the ribs and he called me a bluffer. I said, 'If you think I'm a bluffer, I'll take you on any time, any place and under any conditions.' By this time we were both getting warm and I removed my glasses—stripped for action."

"We rushed to a clinch—just like professional fighters. I managed to clinch him in the mouth. See, he had his teeth out on my finger. That punch laid him on the table, but unlike most measures, he didn't get up. He was a little younger Baldwin, the clerk from San Diego, said he intended to keep order in the room and he told me to get up. I said, 'I'm not getting up until you get up.' He said, 'I'll take you on any time, any place and under any conditions.' By this time we were both getting warm and I removed my glasses—stripped for action."

## RUSH TO U. S. FLAG

With the war-time rush for citizenship papers all previous records for one day's business at the naturalization bureau in the hall of the city clerk is in charge of Deputy County Clerk Eugene Phelps, were broken yesterday with the issuance of twenty-seven first papers. Of those who swore allegiance to the United States there were twelve Italians, six French, four English, two Austrians, one Portuguese, one Russian and one Norwegian.

SAN FRANCISCO, April 17.—French and Italian residents are flocking to the county clerk's office to take out their first naturalization papers in numbers rivaling those of the Germans who sought citizenship at the time the United States entered the war. It is noted that the rush did not begin until the day that announcement was made that the allies would be allowed to recruit in the United States, each nation among the men of its own race. The Italian and French seekers after American prestige would evidently rather fight under the Stars and Stripes than under the flags of their respective nations.

## PIONEER IS DEAD

Thomas J. Smith, California pioneer and for fifteen years an Oakland resident, died this morning at his home, 464 Twenty-first street. He was 87 years old and a native of Wisconsin. The funeral will be held Thursday afternoon at 1 o'clock. After a short service at the chapel, 2936 Telegraph avenue, interment will be made in Mount View cemetery.

Smith came to California when 19 years of age. Unable to join a wagon train, because of its overcrowded condition, he walked the entire distance, arriving here in 1850. He was in Benicia when news first arrived of California's admission into the union. With several more adventurous spirits he fired a big gun salute from the Benicia arsenal. This was one of the first salutes made in recognition of the new Western State.

## KILLED BY WOMAN

YUMA, Ariz., April 17.—Mrs. J. F. Ewing shot and killed a Southern Pacific railroad brakeman named Jordan today when he refused to leave her home according to the police. Jordan had been drinking. Mrs. Ewing, who threatened him with a pistol. She shot him through the heart when he tried to snatch it from her. Jordan lived in Oakland, Cal.

## WONDERFULLY GOOD SUITS AT \$25.00

Many Women Buying Them on Credit

The special \$25 suits being shown at CHERRY'S Credit Clothing Stores are attracting much attention. It is astonishing how excellent a garment \$25 can purchase in these popular shops.

With prices of wearing apparel noticeably high elsewhere, it is indeed fortunate that women in moderate circumstances can get stylish, elegant clothing at such a popular price. These handsome suits are the latest style—plain tailored or sport effects. In the latter group the bright colors predominate, because these, as every woman knows, are all the rage now.

Lovely Mary Miles Minter appears in person at the New T. & D. Eleventh at Broadway, Wednesday (tomorrow) at 8:30 p. m.—Advertisement.

## ESTUARY REVEALS DEATH MYSTERY

Believed at first to have been the victim of a brutal murder and robbery, but now held by the police to be a suicide, the body of a well-dressed man bearing fraternal insignia and jewelry indicating a former residence at Ontario, Cal., was found floating in the Oakland estuary shortly after 8 o'clock this morning by Policeman James Goodnight.

The discovery occurred when some small boys called the policeman's attention to the fact that the body of a man was partly floating in the water at the foot of Jefferson street. Investigation disclosed the unidentified dead man lying face down in the water. He was about 40 years old, and bore marks and bruises about the face and head that lead the authorities to believe the man was killed and his body thrown into the water a few minutes before being found.

He had a job in his pocket, but no watch, five pennies and a scarfpin. In his buttonhole was the emblem of the Royal Arch Masons. On the emblem was the words "Lancaster Chapter—Ontario," and the initials, "A. D." The same initials were on the job, the cufflinks and the stickpin. The words are thought to refer to the Lancaster Lodge of Masons at Ontario, and will probably form the main clue to the man's identity.

An investigation by the coroner showed that there was water in the man's lungs, making more convincing the suicide theory.

## TO PLAN SHOPS

For the purpose of equipping the foundry and the electrical shops of the Technical High School in an up-to-date manner, the board of education last evening appropriated \$5000 for each department of the institution. Superintendent Barker was authorized to name a committee to plan for the equipment which will result in the complement of those departments.

## SAY THERE!

Lovely Mary Miles Minter appears in person at the New T. & D. Eleventh at Broadway, Wednesday (tomorrow) at 8:30 p. m.—Advertisement.

## GERMANS JAILED

CALIFORNIA, April 17.—Federal agents are today examining Paul Gottschling and Albert Klingbeil, German subjects, who were arrested last night for violating the presidential proclamation forbidding enemy aliens entering into the United States. The men crossed the border from Mexico.

## TO BUILD FACTORY

EMERYVILLE, April 17.—Application of the Sterling Paint Company to build a factory at Ocean avenue and Green street was granted by the town board at a meeting last night. The company, which is an Oakland concern, will manufacture all its paint here and has leased ground on which to build.

## SEEK SUGGESTIONS

WASHINGTON, April 17.—Secretary McAdoo today informed the advisory council of the Federal Reserve Board, comprising big banking interests of the country including J. P. Morgan, that the government would welcome suggestions from them as individuals on floating the \$5,000,000,000 war bond issue.

## FIREMEN GIVE CONCERT

The firemen's band of thirty pieces, which gave a concert at the firehouse of No. 2 hose and chemical engine last night, will appear at the different fire houses at intervals in the near future, arrangements having been made for the program. The band also appears at the regatta on Lake Merritt next Saturday.

## Prof. Hertzog Praises This Perfect Laxative

Dr. Caldwell's Syrup Pepsin an Ideal Remedy for Constipation.

In every family there is more or less occasion for a laxative remedy. It is to meet this need that Dr. Caldwell's Syrup Pepsin is prepared, and that this combination of simple laxative herbs with pepsin fulfills its purpose as proven by its place in thousands of American homes.

Prof. F. J. C. Hertzog, the well-known linguist, 3341 North Orlanna Philadelphia, Pa., wrote to Dr. Caldwell that he has used Dr. Caldwell's Syrup Pepsin in his household with excellent results and that he and his family consider it indeed a friend in need, and always keep a bottle of it on hand.

Constipation is the direct cause of much serious illness and is a condition that should never be neglected. Harsh cathartics and violent purgatives should never be employed to relieve constipation, because the very violence of their action shocks the entire system. A mild laxative, such as Dr. Caldwell's Syrup Pepsin is far preferable, being mild and gentle in its action, without griping or other pain or discomfort; its freedom from all opiate or narcotic drugs makes it an ideal remedy for children.

## ANNOUNCEMENT By the GROCERS BAKING COMPANY TO ITS PATRONS

Owing to the increased cost of all material used in the manufacture of our Bread, such as

FLOUR, SUGAR, LARD, CONDENSED MILK, MALT EXTRACT—

and in order to maintain the high standard of quality we have adhered to in past years and not reduce the quantity of each of the above materials necessary to produce a quality loaf of bread; also to continue to wrap our bread in a sanitary wrapper at the oven and not increase the retail selling prices above five and ten cents, we have been compelled to reduce the weight of the loaf to 10½ ounces for the five-cent size and to 21½ ounces for the ten-cent loaf.

Trusting our patrons will consider our action in all fairness and continue favoring us with their patronage in the future as they have in the past, we remain,

Most respectfully,

Grocers Baking Company

## LARGE OUTPUT BEING PLANNED

SACRAMENTO, April 17.—In view of the extremely large plantings which have been made in the state during the seed time, just passed, a tremendously large agricultural output is looked for at the coming harvest, if weather conditions remain favorable. C. A. Bodwell, Jr., the active executive of the Farmers' Protective League, said today:

"In the great interior valley, from Tehachapi to the Sierras, through the smaller valleys of the Coast Range, unusually large areas have been sown to grain and forage crops. Add to this the acreage in bearing orchards, vineyards, etc., which has increased greatly over last season, and we realize that the matter of people enough to harvest the crops is a serious consideration.

Just at this time all effort possible must be made to gather and most economically distribute the food output. Not a pound should be wasted. The necessities of the times are calling so many from agricultural pursuits to mechanical industry, that it is necessary to seek unusual means for their replacement.

"Therefore, it is the purpose of the league to ask for and support legislation which may temporarily place in the hands of the governor the right and power to increase the summer vacation period of all schools and colleges. This is intended that the youth of the state may aid in saving the crop which otherwise may be partly lost for lack of sufficient numbers to harvest it."

"In the fruit industry, youths of both sexes are desired for the lighter parts of the work. Dexterity in this is desirable rather than strength, and youngsters frequently earn more for short periods than adults in other heavier and well paid callings."

Bodwell said further: "We believe that some systematic organization or group handling of these youths by their teachers or other proper officers will be necessary as a part of an effective scheme both for their personal comfort as well as effective working capacity. This is a matter of supreme importance, for even the man who makes powder must first have food."

## WILL FILL JOBS

The United States Civil Service Commission announces that the examinations listed below will be held in San Francisco at an early date.

Assistant dairy manufacturing specialist (male), \$1500-\$1700 year, Dairy Division, Bureau of Animal Industry, Department of Agriculture.

Assistant in incubation and brooding (male), \$1200-\$1800 year, Bureau of Animal Industry, Department of Agriculture, Washington, D. C., and in the field.

Assistant in plant nutrition (male), \$1000-\$1300 year, Bureau of Plant Industry, Department of Agriculture, for duty in the field.

Assistant inspector of engineering material, air craft (male), \$448-\$55.04 per diem, at office of Inspector of Engineering Material, Boston, Mass., Brooklyn, N. Y., and Pittsburgh, Pa.

Sub-inspector of ordnance (male), Navy Department, at and away from duty, at naval establishment of the United States at \$4.45 per diem.

Mechanical engineers (male), mechanical engineer (artillery ammunition), \$3000-\$3600; mechanical engineer (general mechanical work), \$2500-\$3000 year, mechanical engineer (optical instruments, etc.), \$2200-\$2600 year, for duty at Frankford Arsenal, Philadelphia, Pa.

Surveyor (male), \$900 year, Colville Indian Agency, Washington.

Mechanical draftsman (male), Bureau of Yards and Docks, Navy Department, Grade 1, \$3,524-\$4 per diem; Grade 2, over \$4 to \$5.04 per diem; Grade 3, over \$5.04 to \$6 per diem; Grade 4, over \$6 to \$7 per diem.

Ship draftsman (male), Bureau of Construction and Repair, Navy Department, Washington, D. C., and at other navy yards; Grade 1, \$3,284-\$4 per diem; Grade 2, over \$4 to \$5.04 per diem; Grade 3, over \$5.04 to \$6 per diem; Grade 4, over \$6 to \$7 per diem.

Metallurgical engineer (male), \$7,04 per diem, Bureau of Steam Engineering, Navy Department, Washington, D. C.

General mechanic (male), \$1200 year, Bureau of Plant Industry, Department of Agriculture for duty at Ardmore, South Dakota. Applications and further information relative to these examinations may be obtained from the secretary, Postoffice Civil Service District, Room 241, Postoffice Building, San Francisco, California.

## FLAG IS DEDICATED

Dresses and national songs were included in a dedication program yesterday when a large American flag, eighteen feet long and nine feet wide, was raised for the first time over the new home of the Oak street. The flag is the gift of J. H. Tabor and guests of the hostelry, following the "Star Spangled Banner," sung by Arthur Turner. The flag was raised by Mrs. Ella Barrow. An address by J. E. Chandler reviewed the history of the war and the dedication of the American flag. In concluding the program.

## SEEK LOST GIRL

Phoebe Jordan, an 18-year-old girl who left her home at 1781 Atlantic street yesterday in search of employment and failed to return last night is being sought by the police at the request of members of her family.

Jack and Glen Farrell, 4 and 6 years of age respectively, are missing from their home at 6441 Ignacio avenue, according to a report made to the police by the parents of the children today.

## MURDER TRIAL ON

LOS ANGELES, April 17.—Actual trial of L. E. Enright, age 39, farmer, on charge of killing his wife and stepson, and burning their bodies, began in Superior Court today. Late yesterday the jury was completed and an emergency juror selected.

## FRAUDS CHARGED

CHARLESTON, W. Va., April 17.—Thirty Republicans, including several of whom are prominent in West Virginia politics, were arrested last night, charged with buying votes in the city election.

## STRIKE FOR INCREASE

CAMAS, Wash., April 17.—Two hundred men at the Camas branch of the Crown Willamette Paper Company are on strike today because the company refuses to grant an increase in wages of 10 cents a day, with time and a half for overtime. The 1st April the men were given an increase of 5 per cent.

## BRILLIANT YOUNG

Film Star to Be at T. & D. in Person

MARY MILES MINTER.

## Mary Miles Minter Will Appear Tomorrow Night to Tell of Experiences.

Mary Miles Minter, the screen's youthful star, will appear in person tomorrow night at the T. & D. theater for the purpose of telling every Oakland patron and friend just how she got into the pictures. The 15-year-old actress, feminine lead in "The Gentle Intruder," last month's Mutual super-production, is thoroughly capable of giving information about the motion pictures, for, despite her youth, she has had years of studio experience.

At 8:30 all film activities will be suspended in the house at Broadway and Eleventh street so that the little blonde photoplay luminary may shine out on an audience made up entirely of her friends. She will tell in her own way just how it happened that she broke into screen work instead of staying at home with the folks and learning more reading, writing and arithmetic.

Miss Minter was born April 1, 1902, but she has proved herself to be no April's Fool Day joke by any means. In her short stage career she supported such stars as Nat Goodwin, Robert Hilliard, Mrs. Fiske, Bertha Dustin and William. Her success was so apparent that film men engaged her to assume leads in screen stories of special caliber. By mere force of her capability she has made herself one of America's foremost film ingenues.

## PLANS ADDITION TO SEQUOIA PARK

WASHINGTON, April 17.—The addition of 11,138 square miles to the Sequoia National Park is proposed in a bill introduced today by Senator Phelan and William. The measure carries the endorsement of the department of the interior.

No appropriation is provided, as the land contemplated for the park is public land included in the forest reserve of California and is located on the north and east sides of the park. A section of the measure provides that the mineral laws of the United States be extended to lands included in the park so that mining can be continued.

## NAMED BY WILSON

WASHINGTON, April 17.—President Wilson has nominated for appointment today J. L. Carrasco, Antonio, Tex., to be United States district attorney for the western district; W. J. McDonald, Dallas, Tex., to be United States marshal for the northern district of Texas; John H. Rogers, Austin, Tex., to be United States marshal for the western district of Texas; and John W. Jennings Juneau, Alaska, to be United States district judge for division No. 1.

## MEXICANS' FOES

EL PASO, Texas, April 17.—Only eight deputies of the entire membership of the Mexican House of Deputies favor Carranza's plan of neutrality, as announced in his message Sunday, according to word received here today from Mexico City.

It is reported in unofficial advices reaching here that scenes of wildest disorder occurred when discussion of Carranza's address commenced and that several deputies yesterday spoke from the floor, openly advocating an alliance with Germany against the United States.

## PLOTTING DENIED

NEW YORK, April 17.—Dr. Chandra Chakrabarty and Heramba Gupta, Hindu students at Columbia University, and Dr. Ernest Sekunna, a German chemist, pleaded not guilty today to an indictment charging them with plotting a revolution in India in violation of the United States laws.

## LAWYER IMPROVES

James G. Sweeney, one time chief justice of Nevada and a notable power in the adjoining State, is recovering from the effects of a severe cold at his sister's home in this city.

Mrs. George Lammon, his sister, of 807 Jackson street, believes that he will be able to assume his duties within a few days.

## HAWAII TO BE WEATHER BUREAU ON U. S. SYSTEM

HONOLULU, T. H., April 17.—Honolulu will soon become the westernmost weather station of the United States, if plans which are already being put into execution by Andrew Hamrick, meteorologist of the local United States weather bureau, are carried to completion.

Hamrick on March 31 shipped on the schooner Florence Ward to Midway Island a set of meteorological instruments which is the first of several such sets he contemplates sending out to various widely separated places throughout the Pacific ocean. He has made arrangements with the Pacific Commercial Cable Company for its employees on Midway to take daily observations of wind, rainfall and other phenomena and cable the results to him here every evening.

It is proposed to install one set of instruments on Midway Island and set up there a wireless station, by which reports can be transmitted to Honolulu. Judge Henry F. Cooper, of Honolulu, owner of Taimyria, sailed for the isolated speck of land yesterday. Before leaving, he said he had been arranging with Mr. Hamrick to give this service and expected to take a set of instruments with him on another trip to the island, which he proposes to make within a short time.

SACRAMENTO, April 17.—Knights Templar and Royal Arch Masons to the number of more than 4000 are already in the city to participate in the annual convocation of the three grand divisions, the Grand Council of Royal and Select Masters, the Grand Commandery of the Knights Templar. A session was held here by the Royal and Select Masters of Sacramento, who conferred degrees on two candidates in the presence of the Grand Council.

Harvey L. Marvin of San Francisco was chosen grand master of the Grand Council of Royal and Select Masters at last night's annual election of the council held in Scottish Rite Temple.

The other officers follow: Deputy grand master, Samuel B. Burke, Los Angeles; captain of guard, David J. Reese, Ventura; conductor of council, Roy Fry, San Jose; conductor of council, Ernest E. Ford, Alhambra; steward, Francis E. H. Smith, Oakland; chaplain, John W. Gwitt, Oakland; organist, Samuel D. Mayer, San Francisco; lecturer, Henry Ashcroft, San Francisco; treasurer, W. W. Douglas, Los Angeles; recorder, Thomas A. Davies, San Francisco; sentinel, George W. Perkins, San Francisco.

## TO URGE SUFFRAGE

LOS ANGELES, April 17.—Miss Margaret Whittemore, 17, of Cody, Wyo., arrived here to inaugurate an automobile campaign, which they said they would conduct in eleven Western states as representatives of the National Woman's party, to organize women for a national woman suffrage campaign in 1918. They will go from here to San Diego late this week, traveling in their own automobile which they will drive themselves.

## A Single Application Will Banish Objectionable Hairs

(Aids to Beauty)  
Here is a home treatment for removing hairs that is quick, painless and inexpensive. Some powdered delatone and water make enough paste to thickly cover the objectionable hairs, apply and after 2 or 3 minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will remove the skin, but to avoid disappointment, be careful to get real delatone. Advertisers.

TUESDAY, APRIL 17, 1917.

## MAKE DEMOCRACY A SUCCESS.

President Wilson on Sunday addressed to the people of the United States an appeal for cooperation, "to join together to make the nation a unit for the preservation of its ideals and for the triumph of democracy. The supreme test of the nation has come. We must all speak, act and serve together."

The President has selected the American and the democratic method of informing the people of their duties. In nearly all other countries the governments would use exclusively their powers to enforce popular cooperative efforts. They would put the people under regulation as to their smallest acts and exercise strict supervision of social and domestic life. The President has asked that every citizen act as a volunteer for the accomplishment of the necessary ends.

Yet he possesses adequate power to place all the nation's resources under military administration and compel such diversion of them to government use as he might deem necessary for the nation's requirements. It is a fortunate condition that leads the head of the nation to rely upon popular volunteer aid and it is one which makes it doubly obligatory upon all the people, to exert their best efforts to live up to the President's expectations.

The supreme test of the nation likewise is the supreme test of every citizen and his capacity to contribute to the national well-being. The President calls attention to the need for increasing the production of food and material; of conserving the supply of everything normally entering into our life and which may be of service in advancing the success of this country and its allies in Europe. He speaks to the farmers, the manufacturers, the miners, the transportation men. If all respond in patriotic spirit, there will not be any necessity for government interference in private business, but if there is failure to make good in any place along the line the government will have to take over that part of the line and make it strong.

The call for volunteers to speed up the industrial work of the nation should be answered with a mighty and unanimous voice.

## COOPERATION—AND NOTHING ELSE.

The city council yesterday acted wholly within its discretion and with commendable good judgment in withdrawing permission for a meeting in the municipal auditorium to voice agitation and propaganda regarding the war. There is no occasion for any public or private gathering to debate theories and to utter advice except when the meetings are under responsible government control.

The object of the persons behind the movement which has come under the disfavor of the city council is of little consequence. Any purpose which does not coincide exactly with the program of the government is unworthy of good citizenship and should not be given a public hearing.

The United States is at war. The President is commander-in-chief of the military and naval forces. Whatever orders he may issue, whatever military policies he may put into effect, should have the cheerful acquiescence of all citizens. The people must trust the President to do all things needful to triumph over the nation's enemies. They cannot loyally do less.

In a national emergency such as the present, the interests of the country and its safety, as conceived by those directing the government, are superior to all civil rights of the individuals and of States and of communities. There is no such thing as an inherent individual right if the exercise of that imagined right interferes with the objects of the government in protecting the whole people and defending the Republic. The national security is superior to every other consideration, public and private.

Any attempt on the part of peace workers or any other persons designed to discourage enlistment, to stir up dissatisfaction among the people, to alienate any portion of public support from the government, or to interfere with the government's use of the military, naval and financial powers, may justly be considered criminal in time of war. Within a few days Congress will, it is to be hoped, provide adequate penalty for these offenses. It is also sincerely to be hoped that no citizen will merit any of the extreme penalties provided and justified during war.

The action of the Oakland city council should prove a warning to all who are laboring under the

impression that the present is a time in which they may exploit their own ideas regarding the government's conduct of the war. What is needed is honest cooperation, not disloyalty in fair disguise.

## PREVENT WASTE!

One of the methods by which the women of the United States who are affiliated with the general federation of women's clubs are going to aid the government in the present war is economy in the home. They are pledging themselves to use only enough food for adequate nourishment, to live simply and to control waste.

In carrying out this program the women of the homes will contribute tremendously to the power of the United States in dealing with its enemies, without incurring any great hardships upon themselves or their families. If waste and extravagance be eliminated from domestic life an advantage will be gained equivalent to a twenty percent increase in the crop production of the country.

At the same time the housewives who follow the advice of the club federation will probably administer a deserved rebuke to some of the combinations of middlemen who are dictating the prices of food-stuffs solely for the sake of extortionate profits. At present the egg distribution of all northern California is controlled by a ring of dealers who have agreed to maintain high prices. Eggs are now selling for thirty-five cents a dozen, when they should be less than twenty cents. If the housewives will cut down on the use of eggs so long as they are held at a fictitious price, the egg monopoly will soon be broken. They might easily do voluntarily what the French people were compelled to do by their government—eliminate custards, cakes and other pastry in which eggs are used and substitute other desserts. Such economies in other food staples may show us the way to beat the market manipulators.

## MR. BRYAN WINS.

Mr. William J. Bryan will not hesitate to turn the war situation to his financial advantage. At the outbreak of hostilities with Germany he had a number of speaking engagements with a Chautauqua bureau, but received notice that these would be cancelled unless he agreed to quit preaching opposition to the government. Now Mr. Bryan has gone to Washington and offered his services to the President as itinerant field agent of conservation. He represents that his Chautauqua tours provide him with a valuable medium for disseminating the government's ideas. In this way he will be able to fulfill his contract and conserve a salary.

Mr. Bryan has never been known to overlook an opportunity to add to his income. And perhaps the administration recognized that to aid him in this regard was the simplest method of disposing of him. However, the government certainly realizes that one who has so strongly advocated arbitrating a reign of murder that still continues is not the most desirable person to entrust with explaining a war program. If no doubt would have been much better for the country if Mr. Bryan's first offer—to enlist as a private soldier—had been accepted.

Besides being a fine location for a public park the Joaquin Miller place will be historically attractive. The unpretentious cabin which he occupied is to be preserved. It is too familiar for those near by to regard with very great interest, but it will become a shrine to visitors. For Joaquin Miller was held in high repute by all English-speaking peoples, especially on the other side of the Atlantic.

## THE TRAINING PROBLEM.

(New York Times).  
Obedience is not instinctive, as any father of a family can testify. There are, to be sure, American families in which the habit of obedience has been enforced for several generations and discipline has been one of the gifts of inheritance. But the number of such families has been rapidly decreasing under modern social influence. The soldier must be taught obedience. That is the chief, though not the only, object of military training. The hardest problem this nation confronts on the threshold of war is not the recruiting of soldiers, but their training. It is useless to wait over neglected plans. We must face the situation that exists.  
Within a year there must be nearly 40,000 officers in our army. We have now only a small fraction of that number, and even in the regular army there is scarcely of officers competent to take hold of a body of men and instill in them the principles of obedience and discipline and the rudiments of modern military training. But the regular army man, no matter how limited his practice may have been in that kind of work, is in the practice of it. He is a soldier. With the reserve officers the task will be harder, but they will all have had some sort of training before they begin to train others. There will be no question of getting the number of men required. Every intelligent citizen knows that universal obligation to military service has always been the rule in this country, as it must be in a democracy. But the training will require the utmost devotion to duty on the part of officers and men.

Now is the time when the value of a system of compulsory military training for all able-bodied young Americans must be clear to the most obtuse advocate of peace. The military training of citizens does not mean militarism. It means the perpetual protection of citizenship. But we must now get along with raw troops trained as quickly as possible. The work can be done. There is no problem in the situation that cannot be solved, but in the future we must have a permanent army of trained citizens that will be ready for any emergency.

## WHY WASTE TIME?

(Kansas City Star).  
What is the use of continuing to fuss around with a system that experience has shown will not produce an adequate modern army? Universal service is bound to come. Why not recognize the fact and get down to brass tacks at once?

Provision undoubtedly should be made to accept the service of older men as volunteers provided they are physically fit. But for the bulk of the force reliance can be put only in the universal service principle.

It is the democratic way. The war is the nation's job. It should not be left to the self-sacrificing to fight, while the slacker escapes. To apply the universal service principle is no reflection on the patriotism of the country's young men. It is a recognition of the justice of an equal sharing of the burden.

All sorts of schemes are being proposed to avoid facing the real facts, as they are faced in the measure proposed by the general staff. These make-shifts will have to go into the discard. The only fair way by which the army can be raised—the only way by which it can be raised—is by the method of democracy, universal service. The nation ought to come to it without losing more time chasing moonbeams.

# NOTES and COMMENT

Kansas City Star's rule of conduct: "So live that your former sweethearts will point you out to their husbands as the man they might have married."

T. R. thinks that universal training is all right and necessary, but he hungers for the front and wants to be off. Some of that pep that required trips through the wilds of Africa and Brazil is manifest in his most recent appeal to Congress.

The effort of the Argentine government to stall the German question was not approved by the popular press, according to news reports. The Argentines have about the same understanding and feeling as other peoples on the American continent.

Lord Northcliffe assures us that we are better equipped for war than any of the allies when it broke. This is a reversal of our own appraisal of ourselves.

The Japanese were not flustered over submarines in the Pacific, and now declare there is no such menace.

The President's most recent appeal is not an official document, but will go to more than a hundred million citizens' hearts, and should reach the understanding of all others who have had a faint idea of what the American commonwealth stands for.

We are adjured to be kind to animals all this week. But if we make it a continuous performance we will extend the effort commendably. The plan to get us into that way of doing by stipulating only a week is all right.

The pictures of devastated France, over which battle has raged, ought to be enough to assure measures after this holocaust that will make it impossible for any country ever again to precipitate such horrors.

Archibald Roosevelt furnishes an example for those who earn slacker titles by summarily marrying to escape military service. He hurried his marriage so that he could join the service.

How it works in bone-dry Kansas is shown by the experience of Henry Schrouder. He was arrested for checking a trunk that contained gin and fined \$500. Same old thing seems to be the matter with Kansas.

The Log Angeles hotel porter who invented a detector of submarines and mines which the government has bought may not have obtained his initial idea from practice in periscope tipping prospects, but hotel attaches get very expert that way.

The recalling of the original name of Russia's capital was proper enough. The substitution of Petrograd for St. Petersburg was without point. It was somehow supposed to be an affront to Germans, but St. Petersburg was named after its founder, Peter the Great who was the mightiest Russian of all history.

## SPIRIT OF THE STATE PRESS

The market fisherman says that Avalon is a playground for the rich; the gasoline boat owners tell us it is a place for them to bring their lunch-box and beer sadder pleasure parties (at \$1 per), and the local business men claim that it is a place for recreation for the tired business men who are searching a spot different from other resorts, a quiet resting place. Now, take your choice!—Avalon Islander.

The "anti-affinity" bill urged by the Women's Legislative League is now up to the governor for signature or veto. The Senate, having passed the Assembly bill providing for permanent support and maintenance of a wife who is separated from her husband, has grounds for a divorce, but is not seeking a divorce. The question arises: If a woman has grounds for a divorce and refuses to live with her husband, why isn't she seeking a divorce?—Redding Courier-Free Press.

Think of that poor woman whose driving horse was sold to the circus to be cut up and used for lion's food. Here's a secret: Those cheap thieves who sold that horse for \$2 to the circus cheated themselves out of \$4, for every horse the circus buys it skins and the hide is sold for \$7.—Marysville Appeal.

Today, April 10, is a notable anniversary in the newspaper world. Benjamin H. Day, founder of the New York Sun, the first penny paper in America, was born in 1810. Joseph Pulitzer, editor of the New York World, was born this date, 1847, and the New York Tribune was first issued on April 10, 1841.—San Jose Mercury.

## FIRST BLOW AT U-BOATS.

To the Editor of The Tribune:  
Was it not the grave menace to her citizens and sailors on the high seas, and the practically entire cutting off of her over-seas commerce that forced America to enter the war? Let us then, in closest co-operation with the allied navies, backed by the great inventive genius in which our country is so rich, put forth every effort to grapple effectively with the U-boats, and once and for all drive them from the seas.  
The Kaiser, Von Bethmann-Hollweg, Zimmermann and others pin their faith on the submarine to win the war, so that the surest way to bring Germany to a realization of her impending defeat is to deprive her of, or render ineffective, that villainous and diabolical weapon.  
The allies having all the men they require, there is no immediate need of sending an army to Europe. In any event months must elapse before an expeditionary force can be adequately trained and equipped for overseas service, so that apart from the very material aid which the United States can, and assuredly will, render, in the shape of money, munitions and supplies, we can best "do our bit" by tackling the submarine problem.  
Time is of vital importance, hence let us strike at once the infernal submarine as used by the immoral, Prussian government.  
Accomplish this and the greatest

## COVER IT.

problem confronting the allied nations today will have been solved; Hohenzollernism will be brought low, and the Teutonic peoples, no longer deceived, will realize perhaps the enormity of the crimes they have been led to commit against humanity.  
E. C. TAGLES.  
San Francisco, April 12, 1917.

## ALLIED FLAGS.

To the Editor of The Tribune:

Now that this country has made common cause with the entente allies, it is not only proper but commendable, I should think, to display the flags of these nations beside Old Glory. I noticed the Union Jack and the Canadian flag flying from the windows of a private office in Broadway. All the entente nations make it a point to display each other's flags upon occasion. Possibly the lead taken by the Broadway firm in flying the British flag side by side with the Stars and Stripes may be followed by others soon. PATRIOTIC.

Lovely Mary Miles Minter appears in person at the New T. & D. Eleventh at Broadway, Wednesday (tomorrow) at 8:30 p. m.—Advertisement.

## Release of Nolan Is Asked By Detective Chief Matheson

### San Francisco Police Say There Is No Evidence Against Labor Leader Held in Bomb Plot

TRIBUNE BUREAU

SAN FRANCISCO, April 17.—Convicted that Edward Nolan, labor leader and one of the five bomb-plot defendants arrested following the throwing of an internal machine into the preparedness parade, was being done a grave injustice by being kept longer a prisoner, Captain of Detectives Duncan Matheson this morning urged District Attorney Charles Fickert to ask the immediate dismissal of the charges against him. The prosecutor replied that he would take the suggestion under advisement, but declined to order Nolan set at liberty at least until after the trial of Mrs. Rena Mooney, set for next Monday morning.

The action of Captain Matheson followed a conference today with Chief of Police White, in which both agreed that there was little evidence tending to connect Nolan with the conspiracy and that as there was no likelihood of a conviction it was unjust to keep him a prisoner any longer. Nolan has been nearly nine months in the city prison.

"I was never in favor of prosecuting Nolan," explained Captain Matheson. "I was against his indictment and I was opposed to his being kept in jail. We never had very much evidence tending to connect him with the other defendants in custody. If it had rested with me he would never have been accused. The district attorney insisted that he be arrested and it was he that presented the evidence before the grand jury. In the light of recent developments I felt that Nolan ought to be let go and I so told the district attorney."

"I have not finished investigating

## CITY REVOKES LICENSES OF SOCIAL CLUBS

Four more liquor licenses were revoked by the city council today when four social clubs—the Idle Hour, the Cooks and Waiters, the Bartenders and the Icomen's Social Club—were put out of business at noon. Chief of Police Peterson being instructed to execute the order forthwith. A total of nine liquor licenses have fallen under the order of the council within the last two weeks, five cafe licenses having been revoked for selling liquor to minors. The clubs each paid \$100 yearly to the city in license fees.

## PLAN MOVES TO INSURE FOOD SUPPLY

WASHINGTON, April 17.—Legislation seeking to empower the cabinet of national defense to supervise distribution of food and if necessary, fix maximum and minimum prices was being framed today as one of the results of yesterday's conference between the great Chicago meat packers and Secretary Houston of the department of agriculture.

Headed by J. Ogden Armour a delegation of the foremost packers, including Edwin Morris and A. C. Cudahy old Secretary Houston of their utmost co-operation and voluntary desire that the government take steps to fix prices through the council of national defense. The licensing of food distributing agencies so the government may trace any movements of middlemen or others to monopolize supply or force raises in prices is one plan the packers proposed.

Edwin Morris, in defending the nation the packers offered a plan to distribute their products at a minimum of profit to themselves and one of them estimated the saving to the nation would be approximately at least \$100,000,000 a year.

Secretary Houston favors the plan and will have a part in drafting legislation to put it into effect. The power to be invested in the council of national defense, it is said, would be used only when the national interests required it. Whenever there was evidence of price fixing or monopoly of supply the council would fix maximum and minimum prices to check it.

## WHAT IS DOING TONIGHT

Civil Service Board meets, City Hall.  
Merchants' Exchange meets.  
T. & D.—Herald Improvement Club meets.

Edna—Hilop, Lockwood and May Allison in A Men Love.  
Kluge—Mysterious Mrs. M.  
Franklin—Dorothy Dalton in The Dark Road.  
Luna—Inland Beach.  
Fidelity—Ocean water swimming.

## PARADE TO BE HELD BY RED CROSS

Plans for the military parade in celebration of Red Cross day tomorrow have been practically completed, and so great is the interest being taken in the patriotic display that the original schedule of divisions has had to be altered and a special call issued for volunteer automobile drivers. The latest recruits to the ranks of the parade are the cadet corps of the Alameda high school, the band of the Lockwood school and the United Spanish-American War Veterans.

The parade will start at 12:30 o'clock from Twenty-second street and Broadway, march down Broadway to Ninth, thence to Washington, north to Fourteenth, street and west to Market street, where it will disband. After the parade the scene of the day's festivities will shift to Neptune beach, Alameda, where a sham battle and other activities will take place.

Additions to the big loyalty and Red Cross parade which will be held tomorrow noon have been announced from the parade headquarters, 411 Twelfth street, as follows:

Women's drill team of Alameda Park, Native Daughters of the Golden West, League of the Cross Cadets, the Technical high school band and cadets.

Added attractions at Neptune Beach on Red Cross day are the singing of "My Own United States" by Miss Mahol Kelm and the swimming exhibition by Fred Manning, the exhibition champion one-legged swimmer.

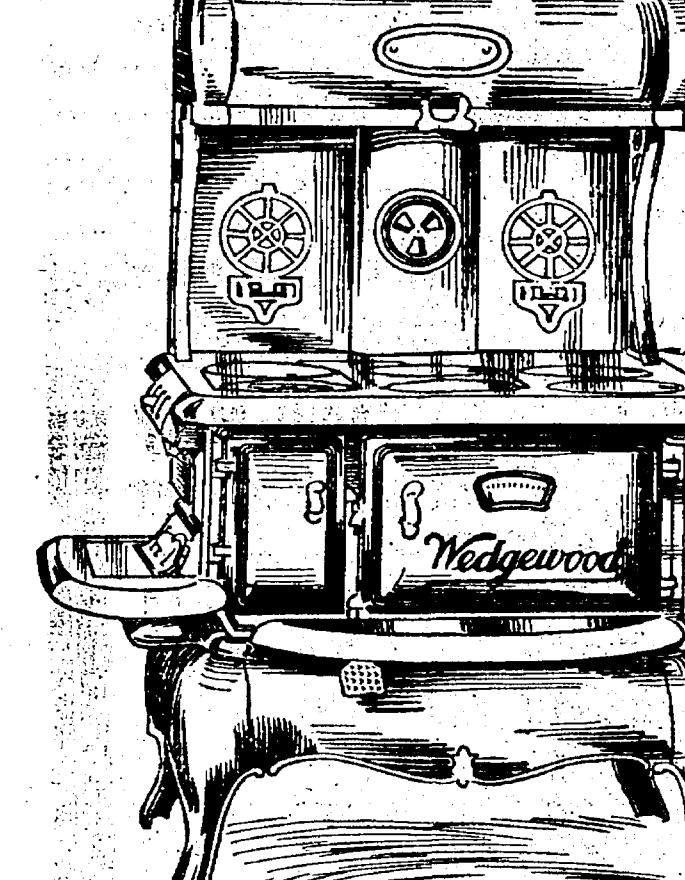

Volunteers to sell tickets to the beach entertainment are wanted at headquarters of the Red Cross, 411 Twelfth street. The entire gate receipts of the beach resort will be turned over to the Red Cross on that day.

Owing to the large number of members of the Grand Army of the Republic and the Woman's Relief Corps who are to participate in the parade (Continued on Page 12, Col. 6)

# Breuners

15th and Clay CREDIT Without Interest

## Burns Gas or Coal or Both at Same Time

The famous Wedgewood two-fuel range is the simplest, most practical and durable ever introduced. There are no parts to be shifted, no changing of clamps, no pulling out this or that. It is a double stove, but it takes up very little more room than a regular coal range.

\$5 allowed on your old Coal Range

SOLD ON BREUNER'S HELPFUL CREDIT TERMS

In a variety of styles and sizes.

Priced from \$37.50 up

according to size and equipment. Hundreds of satisfied users in Oakland and the sales are growing rapidly.

## WANT SHIP MEN

So that they may be called upon for service when required, the government wants 1000 ship carpenters, caulkers and shipwrights to register at the United States employment office, room 2, Appraisers' building, Sansome and Washington streets, San Francisco. They will be employed to work on new ships to be built in this vicinity. Current wages will be paid and the working day will be eight hours.

## WILL WEAR FLAG

Citizens in uniform will hereafter wear a small American flag on their uniforms. Chief Elliott today having issued orders to that effect. Whitehead announced that the new service truck ordered for the department was to be a cost of \$1000 has been received and placed in service in the station at Thirteenth, avenue and East Fourteenth streets, from which point it will cover a wide territory.

## PAPER MEN PLEAD

NEW YORK, April 17.—Seven paper manufacturers, recently indicted for illegally combining in violation of the Sherman law, entered pleas of not guilty in the federal court here today. The defendants were given until April 30 to change their pleas.

## INVENTION SURPRISES THE OPTICAL WORLD

Formerly Believed a Mechanical Impossibility.

To duplicate only that which we did yesterday is halting in the field of endeavor. Standing still is equivalent to a step backward. To strike off the shackles from the old and find a better way is progress. This has been successfully accomplished in the grinding of a lens called "Calitex" for far and near seeing. Ground from a single piece of optical glass, the objectionable features of the old style biconcave are eliminated. This wonderful lens is manufactured by the California Optical Company at its three establishments—1221 Broadway, Oakland, and 181 Post at and 328 Mission st., San Francisco.—Advertisement.

## OXMAN IS WILLING

The willingness of OXman to hasten here to refute the string of allegations of subornation of perjury and endeavors to influence witnesses is taken by the police as indicative of his good faith. Had he desired he could have remained at his ranch and nothing short of a warrant could have forced his appearance. He could not be subpoenaed outside of the state.

Chief of Police White declined today to discuss the latest developments in the attack against OXman furnished by the affidavit of Miss Estelle Smith. In an affidavit the girl charges OXman offered her a bribe in five figures if she would testify to seeing Israel Weinberg, the jitney driver, in front of 721 Market street on July 22, the day of the preparedness parade.

Miss Smith alleges that OXman told her that it was District Attorney Fickert who sent him to her, but "the men higher up."

## Summer Draperies

36-inch Cream Scotch Madras Special, 35c Yard

Figured in dainty pink, blue and gold designs. Suitable for curtains or drapes for the bed or breakfast room. An attractive washable curtain fabric.

# STOCKS and BONDS

## STOCKS HIGHER UPON OPENING

NEW YORK, April 17.—After a little irregularity at the opening, the stock market today reflected the development of strong positions after the aggressive bear raids yesterday, and during the first fifteen minutes movements in important stocks were sold at materially higher prices.

Most interest was attached to the marine issues with the preferred moving up 1 1/4 to 7/8. Atlantic, Gulf & West Indies, which opened down 3/4 to 10 1/4, made a quick advance to 10 1/4. Bethlehem Steel "B" made a gain of 3/4 to 12 1/4.

United States Steel common was in heavy demand with the steeling stock, advancing 1/4 to 9 1/4. United Pacific rose 1/4 to 13 1/4. Ohio Cities Gas moved up 1/4 to 13 1/4. Nevada, after opening down 3/4 to 13 1/4, rose 7/8 to 14 1/4. Utah Copper yielded 3/4 to 10 1/4, from which it rallied to 10 3/4.

After the brief rally at the end of the first hour the market quieted down and after midday was without special features.

Some of the leading stocks which had made brisk advances, reacted slightly on small trade closing, but the steeling stocks continued to rise, and the market without significance. United States Steel common was in good demand at close to 10 1/4. United Pacific, which had advanced 1/4 to 13 1/4, was sold to 10 1/4, a loss in all of 3 1/4.

Money loaning at 2 1/4 per cent. Business was almost entirely professional in the afternoon, with steeling stocks and putting out new lines in others.

Marine preferred moved up to 10 1/4 and then reacted to 7 1/4. Steel common rallied to 10 1/4, but again yielded to 10 1/4. Studebaker sold down to 3 1/4.

The market for government bonds was unchanged; railroad and other bonds irregular.

The final close in stocks was steady. Slight rallies occurred at separate intervals in the late trading. However, foreign government bonds were in demand.

Sales, 607,100 shares; bonds, \$3,724,000.

**OIL PRICE IS HIGH**  
PITTSBURGH, Pa., April 17.—Pennsylvania crude oil today advanced 1/2 cent to \$2.20 a barrel today, when a further increase of 5 cents was announced by the Pennsylvania Petroleum Marketing Agency. Two cents per barrel was added to the prevailing prices on Mercer (black), Corning, Campbell and Somerset grades.

**CHICAGO WHEAT PIT**  
CHICAGO, April 17.—Semi-pamphlet conditions ruled for a considerable time today on change here, with prices breaking nearly ten cents higher in the afternoon in corn and more than one dollar in provisions.

The chief cause was the action of the Canadian government making possible the importation of Canadian wheat duty free into the United States from the removal of the Canadian duty on the market was sharply affected by the administration bill at Washington for an embargo on wheat exports to the United States.

The chief cause was the action of the Canadian government making possible the importation of Canadian wheat duty free into the United States from the removal of the Canadian duty on the market was sharply affected by the administration bill at Washington for an embargo on wheat exports to the United States.

## SHIPYARDS REPORT ON MUCH WORK

Review of the shipbuilding operations of concern operating on the eastern shore of San Francisco bay shows that not less than thirty-seven steamers, varying in tonnage from 600 to 1,000, are being built at the present time. Several have been launched and the final work is being done. Others are in various stages of construction and will be launched within the next few weeks or months.

Chief among the more recent ship construction undertaken is the work begun on three wooden power schooners at the E. Stone shipyards for Burns, Philip & Co., Sydney, Australia, for the South Sea island trade. The schooners are of the same type and general construction as the Neptune and Atlas, built four years ago at the same place for the same owners. These latter craft are now interned at Hetchy on account of the war.

At the James Robertson shipyard at Hetchy a 1,800-ton wooden motorboat schooner is being constructed for A. F. Mahony of San Francisco. Oakland estuary construction records show the most important contract of the month to be the 9,000-ton steel steamer, which is being built by the Moore & Scott interests for foreign service. The general ship construction record is as follows:

**UNION IRON WORKS.**  
 War Knight, British stmr., 10,000 tons (Launched April 7)  
 Storvold, steamer, 10,000 tons  
 Fred W. Weller, 30,000 blbs  
 C. Bedford, 30,000 blbs  
 Tiger, 30,000 blbs

**FEW DROPS AND CORN LIFTS OUT**

Says There Is No Excuse for Cutting Corns and Inviting Lockjaw.

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of Frezzone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of Frezzone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the precious high-heeled footwearer is putting corns on practically every woman's feet.—Advertisement.

## VALIANT FLEE AS WATER FLOWS; NO FREE BATHS

Liquid fire could not have been more effective in driving a hostile army out of their trenches than a stream of very liquid water was in dispersing a curious crowd who assembled to watch a water pressure test of the fire department's sixth and seventh streets yesterday. The test was carried out with the nozzle playing from the top of a fire ladder sixty or seventy feet from the ground, the crowd watching the great artificial geyser with right to their feet looked idly on until Chief Elliott Whitehead shouted "elevate." Firemen tilted the nozzle skyward, thus directing the radius of the flying hundred or so feet. The crowd "melted" before the descending shower could unduly cool them. Automobiles running the gauntlet of the geyser were given a free wash. Two hundred or more spectators were entertained to a spectacle. Apart from all these engineering features, the test was a success.

## AUSTRIANS SEEK VOTING REFORMS

BUDAPEST, via Rome to Paris, April 17.—Anzured at the persistent refusal of Count Tisza, the Hungarian premier, to take up voting and other reforms in Parliament, a powerful opposition led by Count Andor, and Michael Karolyi has broken away completely, and, it is stated, finally, from the government leaders, and announces that from now on it will do absolutely nothing to do with Count Tisza, either politically or socially. That the government is still in control, however, is indicated by the fact that the meeting planned for April 29 in front of the Parliament building to discuss voting reform has been prohibited.

Count Tisza's only answer thus far is a speech to the workmen's party, in which he declared that further voting reforms were unnecessary.
